

## We'll dig a little deeper.

We're sure you've been approached by a lot of PEO companies. You might even be with one right now. They all claim to want to get to know you so they can be a part of your long-term plans. But sometimes talk is just talk. You need a PEO who will take the conversation to the next level. Someone who will ask the right questions to help you discover things about yourself you never knew. When that happens, you can start seeing where changes need to take place to realize your company's vision. And that's when you can impact what matters.

We're not just talk.

Everything we do is backed by proven processes & powerful technology to make sure all your bases are covered.

### Employer directed liability

- ▶ Proactive compliance training
- ▶ Policy & procedure manual
- ▶ ADA-compliant job descriptions
- ▶ Compliance investigations & recommendations

### Payroll management

- ▶ Custom payroll reporting
